EDUCATION

Carnegie Mellon University August 2020 - May 2025 (expected)
- Ph.D. student in Machine Learning, advised by Prof. Andrej Risteski — Pittsburgh, PA
- Research interests: machine learning, natural language processing, and data mining — GPA: 4.24/4.33
- I currently work on (1) improving mathematical understanding of transformer-based language models (training dynamics, efficient sampling, mechanistic interpretability), and (2) developing principled approaches to self-supervised learning

University of Illinois at Urbana-Champaign August 2015 - May 2019
- B.S. Statistics and Computer Science; second major in Mathematics; minor in Electrical Engineering — Urbana-Champaign, IL
- Research mentors: Prof. Jiawei Han, Prof. AJ Hildebrand, Prof. Pramod Viswanath — GPA: 4.0/4.0
- Summa Cum Laude; Highest Distinction in both majors
- Bronze Tablet Scholar: top 3% in the graduating class
- John R. Pasta Outstanding Undergraduate Award 2018: 2 out of about 400 computer science undergraduate junior students

WORK

***Student Researcher Intern,* Google LLC** May 2023 - December 2023
- Working on efficient decoding / sampling for language models — Remote and New York City, United States

***Research Intern,* ByteDance Ltd. (parent company of TikTok)** May 2022 - August 2022
- Worked on a research project about machine translation at the ByteDance AI Lab — Remote, United States
- Investigating the effect of language similarity in machine learning models for multi-lingual translation

***Machine Learning Engineer,* Quora, Inc.** August 2019 - August 2020
- Developed neural network models for predicting ads clickthrough rate — Mountain View, CA
- Led team-wide initiative of improving system robustness and reducing on-call burden in the Ads Ranking team
- Developed features for modeling the ads and the users
- Improved backend for cost-efficient low-latency online serving of machine learning models
- Launched online A/B testing to compare different model variants based on a set of key business metrics

***Software Engineer Intern,* Facebook, Inc.** May 2018 - August 2018
- Designed and implemented a platform for investigating machine learning feature importance — Menlo Park, CA
- Proposed and developed feature perturbation and statistical analysis methods

TALKS

Transformers are uninterpretable with myopic methods: a case study with bounded Dyck grammars

- DeepMath Conference on the Mathematical Theory of Deep Neural Networks — Virtual, November 2023
  - Recording: https://www.youtube.com/live/BZ34XH4ffEc?si=LjXAiYywQWys4zG5&t=20360

How Do Transformers Learn Topic Structure: Towards a Mechanistic Understanding

- Prof. Graham Neubig's lab (NeuLab), CMU Language Technologies Institute — Pittsburgh, PA, May 2023
- Machine Learning Reading Group, University of Illinois at Urbana-Champaign (UIUC) — Virtual, April 2023

The Limitations of Limited Context for Constituency Parsing

- Association for Computational Linguistics (ACL) Conference — Virtual, August 2021
- NEC Laboratories Europe — Virtual, July 2021
- Approximately Correct Machine Intelligence (ACMI) Lab, CMU — Virtual, June 2021

TEACHING

***Teaching Assistant,* Advanced Introduction to Machine Learning** — August 2022 - December 2022

- Taught one recitation session on optimization — Pittsburgh, PA
- Held weekly office hours; created and graded homework problems
- Course webpage: https://www.cs.cmu.edu/~nihars/teaching/10715-Fa22/index.html
- Instructor: Prof. Nihar Shah

***Teaching Assistant,* Probabilistic Graphical Models** — January 2022 - May 2022

- Taught two recitation sessions (about algorithmic reduction and causality, respectively) — Pittsburgh, PA
- Mentored nine teams of student projects (topics include natural language processing, information retrieval, 3D computer vision, and causality)
- Held weekly office hours; created and graded homework and quiz problems
- Course webpage: https://andrejristeski.github.io/10708-22/
- Instructors: Prof. Andrej Risteski and Prof. Hoda Heidari

***Volunteer Teaching Assistant,* Data Science Bootcamp** — May 2019

- Contributed to creating a Python tutorial focusing on NumPy and Matplotlib libraries. — Urbana, IL
- Helped in the class section for about 20 math graduate students and answered their programming questions
- Program webpage: https://ravat1.github.io/2019DSB-website/
- Instructor: Prof. Uma Ravat

***Member,* Eta Kappa Nu (HKN) Honors Society Alpha Chapter at UIUC** August 2016 - May 2019

- Contributed to its educational website Weber's Wiki Urbana, IL
- Developed and taught two Analog Signal Processing midterm review sessions, each with about 40 students attending

SERVICE

***Reviewer,* Academic Research Conferences**

- Artificial Intelligence and Statistics (AISTATS) 2022, 2024
- International Conference on Learning Representations (ICLR) 2023, 2024
- Conference on Neural Information Processing Systems (NeurIPS) 2021, 2023
- Mathematics of Modern Machine Learning Workshop at Conference on Neural Information Processing Systems (NeurIPS) 2023
- Knowledge and Logical Reasoning Workshop at International Conference on Machine Learning (ICML) 2023

***Volunteer,* Conference on Neural Information Processing Systems (NeurIPS)** 2023

- Signed up to help with conference logistics during December 11-16 New Orleans, LA

***Session Chair,* Learning Theory Alliance Mentorship Workshop** 2023

- Volunteered in this mentorship workshop centered on communicating one's research verbally for undergraduate, masters, PhD students, and postdocs interested in learning theory and adjacent fields Online
- Hosted a session in which participants gave research talks and the audience discussed learnings and provided feedback

***Member,* CMU Machine Learning Programs Admissions Committee** multiple years

- Assisted in faculty-led tasks and meetings for reviewing and admitting applicants Pittsburgh, PA

***Member,* CMU Machine Learning Admitted PhD Student Open House Committee** 2022

- Planned and organized information sessions and social events for admitted PhD students Pittsburgh, PA

***Mentor,* CMU Computer Science Graduate Application Support Program** 2020

- Connected with potential applicants, particularly those from underrepresented groups Pittsburgh, PA
- Offered feedbacks on their application materials and answered their questions related to graduate school application

SKILLS

- Proficient in *Python, PyTorch, TensorFlow, Jax, C, SQL, MATLAB, PHP*
- Intermediate in *C++, R, Haskell*
- Basic in *Java, JavaScript*
